### PROFILE

---

As a tech-savvy full-stack developer from Delhi, I specialize in crafting cutting-edge digital solutions through front-end and back-end development. With a passion for coding and an eye for design, I thrive on exploring new technologies and leveraging problem-solving skills to deliver effective solutions.

### PROFESSIONAL EXPERIENCE

---

07/2023 – present  
Chennai, India

#### **Software Developer, Nyx Wolves**

As a seasoned software developer, I have led the development of IoT dashboards, managed projects, orchestrated client interactions, executed database design, facilitated seamless project deployment, and conducted thorough module testing. My skills include integrating external libraries for enhanced software system functionality and efficiency.

04/2022 – 06/2023  
Chennai, India

#### **Laravel Developer, Nyx Wolves**

I worked as a laravel developer to create multiple applications from personal websites to IoT-based dashboards where I integrated various technologies like Kafka and created multiple complex logic.

09/2021 – 02/2022  
Patna, India

#### **Laravel Developer, Uipro Corporation Pvt. Ltd**

As laravel developer I've worked on a variety of projects which includes basic to advance CRUD/ BREAD system, payment gateway integration, REST APIs for mobile applications, database design/ documentation

08/2019 – 01/2020  
Delhi, India

#### **Support Engineer, Cloudy24**

I provided support as a dedicated engineer, aiding users in deploying and efficiently managing their websites and associated resources, ensuring a seamless experience for them throughout the process.
